What is an Electronic Travel Authority?

An Electronic Travel Authority (ETA) provides authorisation to travel to and enter Australia and is electronically linked to the applicant's passport.

It is for short term stays for tourism or business visitor activities such as attending a conference, making business enquiries or for contractual negotiations. Business visitor activities do not include work.

An ETA is not a work visa. If the applicant would like to work in Australia they can use our Visa Finder to search for a visa that is suitable for them, visit [Visa Finder](#).

The applicant must be present with their valid passport and have a valid email address to apply using the Australian ETA App. All fields in the application are mandatory unless otherwise stated. Dual citizens must also scan additional passports.

1. Allow the app to scan the passport data page and read the passport chip.

A photo of the personal data page of the passport will be taken and the information contained on that page and in the passport chip will be used for the purpose of completing some of the application.

2. Take a live photo of the applicant.

The live photo must be of the applicant. The applicant is the person who is named on the ETA application. It must not be a photo of another person. This confirms the person applying for an ETA is the same person shown in the passport.

Use the valid passport the applicant will use to travel to Australia.
